

GENERAL SOFTWARE SPECIFICATIONS & REQUIREMENTS

TECHNICAL SPECIFICATION Z-100887

General Specifications

Client software designed and written by ajm Software for resale will generally run under Windows 9x or higher. Server software will generally require Windows NT 4.0 SP6 or higher to operate. Software developed for Linux and other UNIX platforms, AS/400 and MVS is engineered on a client-by-client basis and is not available for resale. Software is available to ajm Software clients only. Contact ajm Software for additional information.

ajmScout Network Monitor™

System Requirements

- Windows 98 or higher
- Windows NT 4.0 SP6a or higher
- .NET Framework V1.1
- Intel Pentium 133 MHz or faster processor (Pentium III 500MHz recommended)
- 64Mb RAM (256Mb Recommended)
- 300Mb Disk Storage (2Gb recommended)
- Microsoft Data Access Components (MDAC) 2.6 SP1 or higher
- Dedicated Internet/Intranet Connection

ajmAuditor™

System Requirements (Server)

- Windows 2000 or higher
- .NET Framework V1.1
- Intel Pentium 133 MHz or faster processor (Pentium III 500MHz recommended)
- 64Mb RAM (256Mb Recommended)
- Microsoft Data Access Components (MDAC) 2.6 SP1 or higher
- 500Mb Disk Storage (2Gb recommended)
- Network Connection
- Winsock 2.0

System Requirements (Client)

- Windows 95 or higher/Windows NT 4.0 or higher
- Intel Pentium 166 MHz or faster processor
- 2Mb Disk Storage
- Network Connection

ajmZip Manager™

System Requirements

- Windows 98 or higher/Windows NT 4.0 SP6 or higher
- Intel Pentium 133 MHz or faster processor (Celeron 500 MHz or higher recommended)
- 64Mb RAM (128Mb Recommended)
- 350Mb Disk Storage (base version)
- Microsoft Data Access Components (MDAC) 2.6 SP1 or higher
- Internet/Intranet Connection (for TIGER Mapping)
- Refer to the Microsoft MapPoint 2002 documentation for MapPoint 2002 installation requirements.

ajmZip Manager ActiveX Tools™

System Requirements

- Windows 98 or higher/Windows NT 4.0 SP6 or higher
- Intel Pentium 133 MHz or faster processor (Celeron 500 MHz or higher recommended)
- 64Mb RAM (128Mb Recommended)
- 2Mb Disk Storage
- Microsoft Data Access Components (MDAC) 2.6 SP1 or higher
- Microsoft Excel 97 or higher
- Visual Basic 6.0

ajmZip Manager Tools for .NET™

System Requirements

- Windows 98 or higher/Windows NT 4.0 SP6 or higher
- Intel Pentium 133 MHz or faster processor (Celeron 500 MHz or higher recommended)
- 128Mb RAM (256Mb Recommended)
- 2Mb Disk Storage
- .NET Framework V1.1
- Microsoft Data Access Components (MDAC) 2.6 SP1 or higher
- IIS 5.0 or higher (XML Web Service)
- Visual Studio .NET 2003
